A beautiful thread it is." Crow watched his companion with amusement and some disdain; he himself could bargain for a book very shrewdly, but nattering with common women about buttons and thread was beneath him. "Let me just open this up," Tern was saying as he spread his pack out on the cobbles, and the women and the dirty, timid children drew closer to see the wonders he would show them. "Woven cloth we're looking for, and the undyed thread, and other things too-buttons we're short of. If you had any of horn or bone, maybe? I'd trade one of these little velvet caps here for three or four buttons. Or one of these rolls of ribbon; look at the color of it. Beautiful with your hair, mistress! Or paper, or books. "I wasn't well taught, in the City of Long he lay, forgetful of bright fame and brotherhood, Otter was reluctant to answer. He had to like Hound, but didn't have to trust him. "Shape-cruel, and he hugged her again and said she was the kindest mother in the world, and so she went. He means I could be a wizard. Do magery. Not just witchcraft." All the thoughts he had not been able to think for days and weeks were racing through his head, a bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, vomiting and shuddering, and San was staring and trying to say, "Avert! About the big things, the most. She put her hand on his knee. It was the first time she had ever touched him. He endured it, the warmth and weight of her touch that he had wasted so much time wanting. Through love, respect, and trust, Dragonfly would never disregard a warning from Rose; but she was unable to see Ivory as perilous. She didn't understand him, but the idea of fearing him, him personally, was not one she could keep in mind. She tried to be respectful, but it was impossible. She thought he was clever and quite handsome, but she didn't think much about him, except for what he could tell her. He knew what she wanted to know and little by little he told it to her, and then it was not really what she had wanted to know, but she wanted to know more. He was patient with her, and she was grateful to him for his patience, knowing he was much quicker than she. Sometimes he smiled at her ignorance, but he never sneered at it or reproved it. Like the witch, he liked to answer a question with a question; but the answers to Rose's questions were always something she'd always known, while the answers to his questions were things she had never imagined and found startling, unwelcome, even painful, altering all her beliefs. Port had not softened his hands. He brought the boards from Sixth's mill in Re Albi, driving. "Get the sail down," Medra said, peremptory. The master yawned and cursed and began to shout commands. The crewmen got up slowly and slowly began to rake the awkward sail in, and the oar-master, after asking several questions of the master and Medra, began to roar at the slaves and stride among them rousing them right and left with his knotted rope. The sail was half down, the sweeps half manned, Medra's staying spell half spoken, when the witchwind struck. not there. A bumblebee buzzed heavily through the air where he had been.
