So Ivory left Westpool on the big wagon pulled by four big, here is of any account. And one day the dragon will come into its strength. If it takes a thousand. He was angry then, very angry, a hungry man whose food is snatched from his hand. He summoned the man Tern to reappear, but he did not know his true name and had no hold of heart or mind on him. The summons went unanswered. "Of course you do! What does it matter what Tarry thinks? You already play the harp about nine times better than he ever did." cheese, roast kid, company," he said. "No, I don't," I replied, unexpectedly stubborn. He arranged the white fragments into a curve, then closed it into a circle. "Yes," he said, studying his eggshells, then, scratching up the earth a bit, he neatly and delicately buried them. He dusted off his hands. Again his glance flicked to Irian and away. could see the silver drops pooling on his tongue before he swallowed. going all untuned and hoarse. Golden had hoped that that was the end of his singing, but the boy. Mead looked at her sister. "Then it's time we talked a bit to you," she said, sitting down across. "Yes," he said with a smile. Then he winced and stopped to press his hand against his shin for a moment. He was so distraught that when he made up his mind to call Silence he could not think of the opening of the spell, which he had known for sixty years; then when he thought he had it, he began to speak a Summoning instead, and the spell had begun to work before he realised what he was doing and stopped and undid it word by word. Next day he had Licky send him the boy. He looked forward to seeing him, to being kind to him, teaching him, petting him a bit as he had done yesterday. He sat down with him in the sun. Gelluk was fond of children and animals. He liked all beautiful things. It was pleasant to have a young creature about. Otter's uncomprehending awe was endearing, as was his uncomprehended strength. Slaves were wearisome with their weakness and trickery and their ugly, sick bodies. Of course Otter was his slave, but the boy need not know it. They could be teacher and prentice. But prentices were faithless, Gelluk thought, reminded of his prentice Early, too clever by half, whom he must remember to control more strictly. Father and son, that's what he and Otter could be. He would have the boy call him Father. He recalled that he had intended to find out his true name. There were various ways of doing it, but the simplest, since the boy was already under his control, was to ask him. "What is your name?" he said, watching Otter intently. of magery. Things don't mix." now to the other half, it seemed, but there was still plenty of flirting going on, and several. Yet as Dory spoke he saw what the girl saw: a long hill going down into darkness, and across it, childlike almost, I could not make out the words, perhaps there were no words. Her mouth was his mother. He did think about his mother quite often, and often was homesick, lying on his cot in. All we know of ancient times in Earthsea is to be found in poems and songs, passed down orally for centuries before they were ever written. The Creation of Ea, the oldest and most sacred poem, is at least two thousand years old in the Hardic language; its original version may have existed millennia before that. Its thirty-one stanzas tell how Segoy raised the islands of Earthsea in the beginning of time and made all beings by naming them in the Language of the Making-the language in which the poem was first spoken. He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again. tasting. Deeper. All the way in. Not the veins, but the bones. Rain came early; snow fell in autumn even as far south as Roke. Storm followed storm, as if the winds had risen in rage against the tampering and meddling of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They listened to the wind blow and the rain beat or the silence of the snow. She didn't understand him, but the idea of fearing him, him personally, was not one she could keep in mind. She tried to be respectful, but it was impossible. She thought he was clever and quite handsome, but she didn't think much about him, except for what he could tell her. He knew what she wanted to know and little by little he told it to her, and then it was not really what she had wanted to know, but she wanted to know more. He was patient with her, and she was grateful to him for his patience, knowing he was much quicker than she. Sometimes he smiled at her ignorance, but he never sneered at it or reproved it. Like the witch, he liked to answer a question with a question; but the answers to Rose's questions were always something she'd always known, while the answers to his questions were things she had never imagined and found startling, unwelcome, even painful, altering all her

beliefs.. "Books?" said a rush plaiter on North Sudidi. "Like that there?" He pointed to long strips of vellum that had been worked into the thatching of his house. "They good for something else?" Crow, staring up at the words visible here and there between the rushes in the eaves, began to tremble with rage. Tern hurried him back to the boat before he exploded.. "Twice." .Havnor Great Port; he owned the biggest chestnut groves; he owned the carts and hired the carters. (thought), the man on the sheet would say that Olaf or I was similar to himself -- we were not so spreading and wandering, making a marsh of it, a big, desolate, waterland with a far horizon, few something more in her, something beyond what she was. And when Irian looked away from the world farther into the room. "The Master Changer you have met," he said. He named all the others, but have any woman he wanted, but women would drain his power, suck away his strength. He wanted no which useful, which dangerous; why some people had one gift but not another, and whether you could. A curl of fire, a wisp of smoke drifted down through the dark air.. "I thought it would be a spell of Change," she said.. Thirty years before, the pirate lords of Wathort had sent a fleet to conquer Roke, not for its wealth, which was little, but to break the power of its magery, which was reputed to be great. One of the wizards of Roke had betrayed the island to the crafty men of Wathort, lowering its spells of defense and warning. Once those were breached, the pirates took the island not by wizardries but by force and fire. Their great ships filled Thwil Bay, their hordes burned and looted, their slave takers carried off men, boys, young women. Little children and the old they slaughtered. They fired every house and field they came to. When they sailed away after a few days they left no village standing, the farmsteads in ruins or desolate.. island. The room was high and long, with traces of former elegance, but very old and very poor. Healers' paraphernalia and drying herbs were everywhere, though ranged in some order. Near the fine stone fireplace, where a tiny wisp of sweet herbs burned, was a bedstead. The woman in it was so wasted that in the dim light she seemed nothing but bone and shadow. As Tern came close she tried to sit up and to speak. Her daughter raised her head on the pillow, and when Tern was very near he could hear her: "Wizard," she said. "Not by chance." In silence Dulse sought his name, and saw two things: a fir-cone, and the rune of the Closed. Ogion, obedient, bringing himself back to himself in the stuffy, tapestried room in Gont Port, did not understand the old man's joke until he turned to the window and saw the Armed Cliffs down at the end of the long bay, the jaws ready to snap shut.
