"That's right, little servant, well done," Gelluk said to her in his tender voice. "Give your dross to the fire and it will be transformed into the living silver, the light of the moon. Is it not a wonderful thing," he went on, drawing Otter away and back down the spiral stair, "how from what is most base comes what is most noble? That is a great principle of the art! From the vile Red Mother is born the Allking. From the spittle of a dying slave is made the silver Seed of Power." "They said you should give me my name," said Dragonfly. "Father fell to raging. So that's that." "If it's a real gift, an unusual capacity, that's even more true. A witch with her love potions." Ivory! That fellow that studied with the Hand? But nobody sat at the table. His enemy was gone..The mage said, "Majesty, as you know, my poor skill has not availed, but I have sent for the greatest healer of all Earthsea, who lives in far Narveduen, and when he comes, your highness will surely walk again, yes, and dance the Long Dance." "Well. . . yes, in a sense, yes. I don't design, I only make. . .". Otter crouched as always in the uneasy oppression of the spellbond. He drank thirstily. The sharp. "To destroy you." The Doorkeeper caught up with her as she came to a cross-corridor and stood not knowing which way to take. "This way," he said, falling into step beside her, and after a while, "This way," and so they came quite soon to a door. It was not made of horn and ivory. It was uncarved oak, black and massive, with an iron bolt worn thin with age. "This is the back door," the mage said, unbolting it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the day dazzled Irian's eyes. When she could see clearly she saw a path leading from the door through the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of Roke Knoll off to the right. But standing on the path just outside the door as if waiting for them was the pale-haired man with narrow eyes.. times better than he ever did." .So it became dangerous to practice sorcery, except under the protection of a strong warlord; and.
