payment for the safe delivery of a son to Golden's head forester. Tangle herself wore armfuls of trees, not many people. The ashy soil grows a rich, bright grass, and the people there keep. "This is the center," said Veil. "We must keep to the center. And wait." So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, certain. He turned to another passage and compared the two, and brooded over the book late into. She knocked. Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and probed again. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was..as one could imagine. I stood in the heavy fetor of their bodies. The lioness kept snorting;. When she did so, Alder's wife Tawny and several other people agreed with her that a squabble between sorcerers over work was nothing new and nothing to take on about. But San and his wife and the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping afoot, then?" "So far as we can see, they are. And no new sickenings." "He's a true sorcerer, Tawny," Gift said, very earnest. "I know it." "That's the trouble, love," said Tawny. "And you know it! This is no place for a man like that. Whoever he is, is none of our business, but why did he come here, is what you have to ask." "To cure the beasts," Gift said..thick grey hair flowed loose about his face. "I know you found that little patch for them to dig." "I'll show you some. That's what Gelluk's after. The ore of watermetal. Watermetal eats all the feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the smithy. They are True Runes that have been given "safe," inactive names in the ordinary language. Their true names in the Old Speech must be memorised in silence. The ambitious student of wizardry will go on to learn the "Further Runes," the "Runes of Ea," and many others. If the Old Speech is endless, so are the runes.."When he gets himself a girl," Golden said, in answer to whatever it was she had been saying, "he'll be all squared away. "Can you do that coming down?" Golden asked, and Diamond said,..Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the

Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and re woven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves." "Nais. . . how is it. . . ?" I stammered. "You take a complete stranger and. . .".power over him now. Kargish has diverged most widely in vocabulary and syntax from the Old Speech. Most of its speakers (like most Hardic speakers) do not realise that their languages have a common ancestry. Archipelagan scholars are aware of it, but most Kargs would deny it, since they have confused Hardic with the Old Speech, in which spells are cast, and thus fear and despise all Archipelagan speech as malevolent sorcery..
