

# THE ETHICAL PHILOSOPHY OF SIDGWICK NINE ESSAYS CRITICAL AND EXPOSITORY

"Bringing them a student - yes. A student of great gifts!". "That was the one thing you could do that I never could. And you never could teach me." bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't. Then for a while he held still, body and mind, beginning to understand for the first time where idly. He was bound for O Port. Ruined lands were all too common. No need to fly to seek them. He vapors. Andanden floated above the mists, a vast broken shape against the northern sky. In the rage of his agony the Enemy raised up a great wave and sent it speeding to overwhelm the island of Solea. Elfarran knew this, as she knew the moment of Morred's death. She bade her people take to their boats; then, the poem says, "She took her small harp in her hands," and in the hour of waiting for the destroying wave that only Morred might have stilled, she made the song called The Lament for the White Enchanter. The island was drowned beneath the sea, and Elfarran with it. But her boat-cradle of willow wood, floating free, bore their child Serriadh to safety, wearing Morred's pledge, the ring that bore the Rune of Peace. "When did a woman last ask to enter the School?" Tarry came back with his band in an hour or so, ungrateful for the respite and much the worse for beer. He interrupted the tune and the dancing, telling Labby loudly to clear out. was the pale-haired man with narrow eyes. flames flickered between their knees, and at the bottom lay the unbroken black surface of an. "I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay afoot through the winter, the cattlemen will be begging you to stay. Though they may not love you." "Oh, they'll come for the glory," said the harper, a lean, long-jawed, wall-eyed fellow of forty. his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady. Keep the-keep the mouth open, for once, eh?" "Would you like some fresh curds? It makes a good breakfast." She was eyeing him, but not for long, and not meeting his eyes. Like an animal, like a cat, she was, sizing him up but not challenging. There was a cat, a big grey, sitting on his four paws on the hearth gazing at the coals. Irioth accepted the bowl and spoon she handed him and sat down on the settle. The cat jumped up beside him and purred. He could eat only in the cell, where they took his gag off. Bread and onions were what they gave him, with a slop of rancid oil on the bread. Hungry as he was every night, when he sat in that room with the spellbonds upon him he could hardly swallow the food. It tasted of metal, of ash. The nights were long and terrible, for the spells pressed on him, weighed on him, waked him over and over terrified, gasping for breath, and never able to think coherently. It was utterly dark, for he could not make the werelight shine in that room. The day came unspeakably welcome, even though it meant he would have his hands tied behind him and his mouth gagged and a leash buckled round his neck. have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And. Witchery was restricted to women. All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic. of his soles, but the mud slimed and fouled any messages the dirt had for him. drop-jawed stare irritated Hemlock, though he knew it shouldn't. Wizards are used to overweening confidence in the young of their kind. They expect modesty to come later, if at all. "I said Roke," Hemlock said in a tone that said he was unused to having to repeat himself. And then, because this boy, this soft-headed, spoiled, moony boy had endeared himself to Hemlock by his uncomplaining patience, he took pity on him and said, "You should either go to Roke or find a wizard to teach you what you need. Of course you need what I can teach you. You need the names. The art begins and ends in naming. But that's not your gift. You have a poor memory for words. You must train it diligently. However, it's clear that you do have capacities, and that they need cultivation and discipline, which another man can give you better than I can." So does modesty breed modesty, sometimes, even in unlikely places. "If you were to go to Roke, I'd send a letter with you drawing you to the particular attention of the Master Summoner." It grew darker quickly. A haze was coming up from the south, blotting out the sky. Only above the huge, dim bulk of the mountain did stars burn clearly. Wind whistled in the reeds, soft, dismal..such things. But his father raged at him for his "shortcuts," even struck him once on the mouth. What they had they shared. Thank you," said Irian..It was far more convenient to him that Losen should be king than that he himself should rule Havnor openly. Men of arms didn't trust men of craft and didn't like to serve them. No matter what a mage's powers, unless he was as mighty as the Enemy of Morred, he couldn't hold armies and fleets together if the soldiers and sailors chose not to obey. People were in the habit of fearing and obeying Losen, an old habit now, and well learned. They credited him with the powers he had had of bold strategy, firm leadership, and utter cruelty; and they credited him with powers he had never had, such as mastery over the wizards who served him..She said, "Do I look all right?"..in the air, turned concave, and became motionless. We sat facing each other; the girl tapped two..Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore..On his rides, he sometimes passed an old house on a hill among great oaks.
