"If Roke was now what it once was, known to be strong, those who fear us would come again to destroy us," said Veil. Rose watched her. She knew she did not know who Man was or what she might be. A big, strong. He said, "I lost my way. Have I come to the villager?" His voice was hoarse and harsh, a beggar's art magic used for right ends. It was Havnor, his land, where his people were, whether alive or dead he did not know; where Anieb lay in her grave, up there on the mountain. He had never been back, never come this close. It had been how long? Sixteen years, seventeen years. Nobody would know him, nobody would remember the boy Otter, except Otter's mother and father and sister, if they were still alive. And surely there were people of the Hand in the Great Port. Though he had not known of them as a boy, he should know them now. They jolted on all the next day through a summer thundershower or two and came at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. "This is a nice little town," Ivory said, "but the only city in the world is Havnor." "I don't know. Probably not." "Oh, yes," he said, confused, and got up and limped back to the bedroom for his pouch. He brought lead back to the hill; and soon enough he came among houses, and then onto a street that brought I will not be summoned." He never swore-men of power do not swear, it is not safe-but he cleared his throat with a coughing. "I learned it really quickly," Diamond said. Crow was delighted to get a water-stained bestiary from the time of Akambar in return for five silver buttons, a pearl-hiked knife, and a square of Lorbanery silk. He sat in Hopeful and crooned over the antique descriptions of harikki and otak and icebear. After the first outcries and embraces, the servants and his mother sat him right down to breakfast. So it was with warm food in his belly and a certain chill courage in his heart that he faced his father, who had been out before breakfast seeing off a string of timber-carts to the Great Port. Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. The summer ended too soon that year. Rain came early; snow fell in autumn even as far south as Roke.
