If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions.. "Don't move," in a low, amicable voice. He sensed great power in the young man, enough that he was..the beginning of time was bright Ea of the northern sea, and the second was Roke. That green hill,.liquid, arranged in rows on side trays, shook, one arm politely offering me this drink, the other. "Ivory! That fellow that studied with the Hand? Is he here?" the Changer demanded of Irian, wrathily. She stood straight and said nothing..and dark eyes under dark brows, eyes that held his, held him, brought the truth out of his mouth..and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped..He looked about, curious and wary. All over the hill spark-weed was in flower, its long petals blazing yellow in the grass. Children on Havnor knew that flower. They called it sparks from the burning of Ilien, when the Firelord attacked the islands, and Erreth-Akbe fought with him and defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Akbe and the heroes before him, the Eagle Queen, Heru, Akambar who drove the Kargs into the east, and Serriadh the peacemaker, and Elfarran of Solea, and Morred, the White Enchanter, the beloved king. The brave and the wise, they came before him as if summoned, as if he had called them to him, though he had not called. He saw them. They stood among the tall grasses, among the flame-shaped flowers nodding in the wind of morning..the silence by splashing and breathing hard. He slogged back up the path through the reeds till he..Otter away..say he ought to go. He's not canny..". "When he passed me," she said in a low voice, "I saw a grave..". He saw the lines of the spells that held him, heavy cords of darkness, a tangled maze of lines all about him. There was a way out of the knot, if he turned around so, and then so, and parted the lines with his hands, so; and he was free..during its first decades; but since during the Dark Time women, witchery, and the Old Powers had..BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end..need be, I'll do it, of course. But you'll find wizards very sparing of the great spells. For good.. "He knows that, sister," Mead told her. "Didn't he tell us he was a ship carpenter? She was kneeling at the horse's leg, looking up at Ivory who was looking down at her..of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare.. It opened into a small market square. People were gathered there, not many of them. They were not buying or selling. There were no booths or stalls set up. They were waiting for him..pretty girls were always near him. He drank a good deal of Gadge Brewer's excellent beer, and..what seemed the confines of the wood. Their reign extended no farther south than Ilien and did not include Felkway in the east, Paln and Semel in the west, or Osskil in the north, but they did send explorers out all over the Inmost Sea and into the Reaches. The most ancient maps of Earthsea, now in the archives of the palace in Havnor, were drawn in Berila about

Veil came from Thwil Town that morning, bringing them a basket of bread, cheese, milk curds, summer fruits.
