Like the witch,..training would first study the high arts of sorcery, and if successful in them might pursue his..power in Losen's pay. Hound did not consider himself to be one of them. "All I have is a nose," he..only in dying life:..IN THE YEARS after Diamond left home, Golden made more money than he had ever done before. All his deals were profitable. It was as if good fortune stuck to him and he could not shake it off. He grew immensely wealthy.."They didn't punish him, but kept his wild powers bound with spells until they could make him listen and begin to learn. It took them a long time. There was a rivalrous spirit in him that made him look on any power he did not have, any thing he did not know, as a threat, a challenge, a thing to fight against until he could defeat it. There are many boys like that. I was one. But I was lucky. I learned my lesson young..you to wait all that time unpaid, neither. So here's an advance, like, on what's to come, and..found he could endure the music if he was dancing to it and talking and laughing while he danced.."I haven't practiced ever since I left, Darkrose," he said. He took a step forward, looking from one young man to the next and the next. He said, "You trusted me, giving me your names. Will you trust me now?"..Irian stood silent too, but her hope sank down, replaced by a sense of shame and utter insignificance. These were brave, wise men, seeking to save what they loved, but they did not know how to do it. And she had no share in their wisdom, no part in their decisions. She drew away from them, and they did not notice. She walked on, going towards the Thwilburn where it ran out of the wood over a little fall of boulders. The water was bright in the morning sunlight and made a happy noise. She wanted to cry but she had never been good at crying. She stood and watched the water, and her shame turned slowly into anger.."It is not glass, to break," Azver said. "It is breath, it is fire."..stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere..said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in..Her breath stuck in her throat. She gasped a little for air. When she recovered herself she saw..rode down several levels, I think, and, getting off on the street at the bottom, was surprised to see..And the Masters . . . Some hold aloof, following arcane knowledge, seeking ever more patterns..The tune ended. "Darkrose," he said, behind her in the dark. She turned her head and looked at..Just as if he were talking to me..wilderness of cats and hens. She liked cats, toads, and jewels. The amethyst necklace had been..his conscience as a wizard told him he could put a hex on her, a curse woven right into her beams.."You'd understand if I told you. All the women."..opposite me with both hands and said:..His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened..sloping sky-blue arrow upward; without any particular sensation, my body passed through two..pretty girls were always near him. He drank a good deal of Gadge Brewer's excellent beer, and..scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?"..the Archipelago-perhaps to avenge the Firelord. These fiery flights caused great terror, and..the summer air and light would soften him, and his tough, bare soles would feel the dry grass..Berry ducked his head and muttered. His eyes were dull. It seemed to Irioth that the man had been poisoned. When Berry went out again, the woman came closer and said, resolute, in a low voice, "There's no harm in him but the drink, but there's not much left of him but the drink. It's eaten up most of his mind, and most of what we have. So, do you see, put up your money where he won't see it, if you don't mind, sir. He won't come looking for it. But if he saw it, he'd take it. He often doesn't know what he's doing, do you see."..She lived with Medra in his small house not far from the Net House, though she spent many days with her sister Veil. Ember and Veil had been little children on a farm near Thwil when the raiders came from Wathort. Their mother hid them in a root cellar of the farm and then used her spells to try to defend her husband and brothers, who would not hide but fought the raiders. They were butchered with their cattle. The house and barns were burnt. The little girls stayed in the root cellar that night and the nights after. Neighbors who came at last to bury the rotting bodies found the two children, silent, starving, armed with a mattock and a broken ploughshare, ready to defend the heaps of stones and earth they had piled over their dead..dragons and humans, but this may be because the poem in its presumed original form, in the.."Not by chance."..was stiff, rejecting him. Then she turned and, fierce, hasty, awkward,

The wizard who called himself Gelluk and the pirate who called himself King Losen had worked together for years, each supporting and increasing the other's power, each in the belief that the other was his servant. "Just for the food and the fire, you know, the peat costs so much now," she was saying, and then looked at what he offered her. "And a man comes when you knock, an ordinary-looking man. And he gives you a test. You have to say a certain word, a password, before he'll let you in. If you don't know it, you can never go in. But if he lets you in, then from inside you see that the door is entirely different - it's made out of horn, with a tree carved on it, and the frame is made out of a tooth, one tooth of a dragon that lived long, long before Erreth-Akbe, before Morred, before there were people in Earthsea. There were only dragons, to begin with. They found the tooth on Mount Onn, in Havnor, at the centre of the world. And the leaves of the tree are carved so thin that the light shines through them, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And then the Doorkeeper takes you down a hall and another hall, till you're lost and bewildered, and then suddenly you come out under the sky. In the Court of the Fountain, in the very deepest inside of the Great House. And that's where the Archmage would be, if he was there..." The first test is the great test, Dragonfly," he said. Every night he lay alone in this cabin he had planned this conversation. "To enter the Great House: to go through that door." Medra had been thinking, once again, and still unavailingly, how he could leave Havnor at once and unnoticed, when the wizard came. work undone, to be a vagrant musician, a harper twanging and singing and grinning for pennies --. furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her. "You ought to have your proper name day, your feast and dancing, like any young 'un," the witch said. "It's at daybreak a name should be given. And then there ought to be music and feasting and all. Not sneaking about at night and no one knowing..." willpower, or the strength of the spell the girl had laid on him. Their conversation was in the face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand. As he walked he thought; he thought hard; he recalled. He recalled all he could of matters his teacher had spoken of once only and long ago. Strange matters, so strange he had never known if they were true wizardry or mere witchery, as they said on Roke. Matters he certainly had never heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would despise him for taking such things seriously, maybe knowing they would not understand them, because they were Gontish matters, truths of Gont. They were not written even in Ard's lore-books, that had come down from the Great Mage Ennas of Perregal. They were all word of mouth. They were home truths. dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as "I won't go," he said. "Anywhere. Ever." "Simply as I protect myself," the wizard said; and after a moment, testily, "The bargain, boy. The power we give for our power. The lesser state of being we forego. Surely you know that every true man of power is celibate." "But outside Roke," said Medra, "there are common people who slave and starve and die in misery. Must they do so for a thousand years with no hope?" But for some decades the kings of Hupun had been in conflict with the high priest and his followers in Awabath, the Holy City, fifty miles from Hupun. The priests of the Twin Gods were in the process of wresting power from the kings and making Awabath not only the religious but the political center of the country. Erreth-Akbe's visit seems to have coincided with the final shift of power from the kings to the priests. King Thoreg received him with honor, but Intathin the High Priest fought with him, defeated or deceived him, and for a time imprisoned him. The Ring that was to bond the two kingdoms was broken. "Keep an eye on him then, master," said the carter. "If it's a real gift, an unusual capacity, that's even more true. A witch with her love potions can't do much harm, but even a village sorcerer, he said, must take care, for if the art is used for base ends, it becomes weak and noxious.... Of course, even a sorcerer gets paid. And wizards, as you know, live with lords, and have what they wish." "You can? Is it allowed?" file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (29 of 111) [2/5/2004 12:33:30 AM]. fierce as ever, but her voice was seldom as harsh as this when she spoke to him.
